Edit this content that we develop and produce finished products in our own facilities, which results in consistent and controlled quality. The Blesy vehicle brakes are manufactured by Matdings, Inc., a global brake products supplier. The fricción of Matdings are integrated vertically, which means that you design, we manufacture and try all the components of the brake pill system, including the cuoses, the backup plates, the materials the materials of friction, hardware and brake rotors. This allows Mat to control the quality, production and delivery, and in last instance the upper value it receives with the Bendix products. Our engineers see the designer of the brake pill and the rotor in an integral way, as well as individually, with a continuous improvement mentality as each vehicle is applied. Providing OE and OES solutions on global platforms on 3 continents, we take advantage of our knowledge base, adapting the Bendix products to the needs of the accessories market. This approach creates opportunities "first to market" with the appropriate solution for application.
